

Two Timer Wall Clock

Recently launched, Two Timer is the perfect way to keep track of more than one time zone at once. Set the main clock to local time, with its sibling clock to the time zone of your choice. Both clocks share the same dial that is printed on the glass itself for clarity.

The clock is constructed with precision and quality – a chassis is made of molded ABS, strengthened and covered with an Aluminium pressing. This eliminates any bending or warping. Toughened glass ensures cleanability and clarity are maintained. The clock also incorporates a 'Continuous Second hand'. It's a celebration of internationalism!

Toughened Glass with silkscreen litho printing
ABS Molding with Aluminium pressing
Weighted & balanced for easy alignment and strength
Quartz continuous movements

Small, 300 x 40mm;

Large, 574 x 65mm;

Available in White, Red, Black
